Re: Objection to Plaintiff attorney(Napoli Shkolnik PLLC, Taft Stettinius & Hollister LLP) fees  
related to Campbell v. Tyco Fire Products LP Class Action Settlement

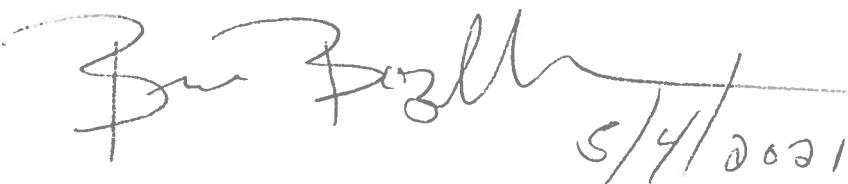

I, Dr. Brian E. Bozelka, wish to file an objection to the fairness of the settlement attorney fees in the above named settlement.

I have owned and resided at N2924 Cooke Lane, Marinette, WI 54143 since 2004. Our home is within the Class boundaries as defined by this legal action.

Although this lawsuit was filed December 18, 2018, I have never been contacted by nor directly communicated with the plaintiff's attorneys. My knowledge of this class settlement(\$17.5 million) and our potential inclusion as plaintiffs was realized only within the last few months. Presently, I understand that the attorneys have requested 42% of the settlement(approximately \$7.4 million) as fees, with their specific costs in this case listed at LESS than \$28.000. I would therefore argue that not a great deal of case specific work was completed by the attorneys, and that their risk(feeds are contingent) was minimal to justify such a very large /unfair portion of this settlement.

2021 MAY 11 AM 9:14  
Clerk's Office, U.S. District Court, Charleston, SC

I therefore submit that the Class attorneys' fee proposal is outrageous and unfair to all of us named as plaintiffs in this settlement. It significantly and negatively not only impacts the value of this settlement should I remain a plaintiff in this case but more importantly detracts from emotional and physical results of this environmental exposure within our community.
